- Call-to-action lead form
- Content / icon selection
- Testimonial carousel
- Revenue samples

## ADDITIONAL PAGES

- Enhanced quote page
- About us / Mission
- Contact page
- Blog
- Activities and attractions

## TESTIMONIALS

“

*We decided to partner with Bizcor to upgrade our website this year and went live with it February 1st. Sara was our Project Manager and she was simply amazing. BizCor provided a Google doc which allowed us to pick the setup of the WordPress theme. Even though the site wasn't completely customized, we felt we were given enough choices to make it unique and really love the results. Our new website is sexy, mobile friendly and makes us stand out compared to the competition. I would recommend Bizcor for a new website or a re-design.*

### **Gran Sueño**

JACKIE NORDE | PROJECT MANAGER

*The team at BizCor is nothing short of absolutely amazing. From the initial consultation with Mario thoroughly explaining their services and setting up goals to furthering my web presence after I launch my new website. He really made me feel secure and I even discussed his competition and what sets them apart (a lot), I didn't feel like a sale. Then I got to development where Justin and his team really helped me get the look I wanted. We worked and tweaked everything until it was absolutely perfect. He was extremely quick to respond and still is, if I have any questions. They went above and beyond to make sure I was extremely happy and still do! Mike and his team handle SEO and that will be my next venture with them. We've had the initial consultation and I'm excited to work with them and get me to my goals! I'm extremely thankful for all the energy and work they put in with me. I had a hard time making some decisions and they were patient, listened and I got exactly what I wanted!*

*As we were onboarding new software we realized issues with our website would make integrations difficult and potentially affect our growth; we were put in touch with the BizCor team and never looked back. They have been a great partner from day one! They listened to our ideas, added professional advice and worked with us to build our sleek new website. Not only did their work give us a new competitive edge but their team continues to support us to maintain that edge and secure our growth. I will never look elsewhere.*
